

## Student Achievement Data Use Planning Form

Use the following form to plan the specific focus of your student achievement data. In your planning, consider strategies you might integrate into your professional growth goals.

| Name: _____   | Subject or year level: _____    |
|---|---------------------------------|
| Evaluator: _____  | Date: _____                     |
| Student achievement data focus (circle all that apply):                                     |                                 |
| National assessment data  |                                 |
| Standardised testing data   |                                 |
| End-of-unit or chapter testing data   |                                 |
| School assessment data  |                                 |
| Quizzes   |                                 |
| Student work samples and projects   |                                 |
| Exit cards and other informal assessment data   |                                 |
| Student Achievement Data Area   | Learning Goal for Data Analysis |
|   |                                 |
|   |                                 |
|   |                                 |
|   |                                 |
| Dates for follow-up meetings to discuss the trends and learning based on the data:<br>_____ |                                 |
